Pool Survey

D Pool orientation, shape and environment (please specify each): ⚠

Pool dimensions (Length x Width x Mean Depth) :
 (meters or feet)

Is the pool covered, and if so at what times?:

Tile colour:

Angle of roof (if panels to be fitted to roof):

Distance from solar panels to pool:
 (meters or feet)

Pool shape (please tick one):

Rectangular

Square

Oval

Other

Performance

E This set of data completes the variables needed for Hot Water Solar to model an accurate simulation of your customer's pool and calculate exactly how many solar panels will be needed.

What boiler is currently being used, and what is the output in kW?
 ⚠

Desired pool season start:
 ⚠

Desired pool temperature (°C or °F):
 ⚠

How many people are using the pool per day?:
 ⚠

Desired pool season end:
 ⚠

Desired maximum pool temperature (°C or °F):
 ⚠
